DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-13, 15-24, and 27 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest the liquid crystal display structure as proposed in claim 1. Arguments submitted on 7/21/06 are persuasive in identifying that the hole in the common electrode of Lee is not located above the entire protrusion shaped electrode (see Remarks Page 9).

U.S. Patent No. 5,969,781 to Matsuyama et al. discloses an empty hole of a common electrode (Figure 4B element 14) as directly above a pixel electrode (Figure 4B element 7), but fails to disclose the pixel electrode as having a protrusion shape. Furthermore, the prior art fails suggest a remedy for this deficiency, among others, of Matsuyama.

U.S. Patent No. 7,002,653 to Taniguchi et al. discloses a pixel electrode (4) having a protrusion shape, but fails to disclose a common electrode as having an empty hole above the entire protrusion shaped electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
